

Carrier Service API

Enable Carrier Service API feature in Shopify

Carrier Service API is a feature that allow to display delivery option in the Shopify Checkout page. It is a paid feature depending on which Shopify plan you have.

Carrier Service API is free feature if you have the Shopify Advanced plan or higher, it will be available in your store already, so you don't need to take any action.

It is also free if you opt to pay for an annual subscription of the lower Shopify plans: Basic Shopify (\$29) or Standard Shopify (\$79). In this case you must contact Shopify Support to activate Carrier Service API for free.

If you have a Basic Shopify (\$29) or Standard Shopify (\$79) plan and you are paying the subscription cost every month, then you can get access to the carrier service for \$20 a month. Please contact Shopify Support for enabling the feature.

When the feature is activated and registered for use by any app, then you will be able to see the section "Carrier and app rates" in Shopify Admin if you go to Settings->Shipping and Delivery->Manage Rates, see images below.
