OrderConnect / DeliveryCheckout

This document shows how to check if below addons are available on your Unifaun Online account:

1. OrderConnect
   Orderconnect (orderkoppling) is needed for syncing between your store and Unifaun account
2. DeliveryCheckout
   DeliveryCheckout/DCO addon is required for using location services (pick-up point, drop-off point) provided by your carrier.

OrderConnect

Login to your Unifaun Online account and click on menu MAINTENANCE. If you have the option called "API KEYS" in the menu then the OrderConnect is enabled for you. OrderConnect must be enabled for syncing shipping label from your Shopify Store to Unifaun dashboard. If you don't have OrderConnect, please contact us for more information.

DeliveryCheckout

Login to your Unifaun Online account and click on menu MAINTENANCE. If you have the option called "Delivery Checkout" in the menu then the DeliveryCheckout is enabled for you. DeliveryCheckout must be enabled for showing pick-up location and drop-off time in your Shopify checkout. If you don't have DeliveryCheckout, you can contact us for more information:
