This document shows how to install Shopify Airmee app from the App Store. Make sure that you have activated the Carrier Service API feature in your store before you install the Shopify Airmee app. Check "Enable Carrier Service API" guide on Uniwin.se. If this feature is activated after you install the app, then you must remove and reinstall the Shopify app again.

About Airmee This Shopify Airmee Integration is the solution for you if you are using Airmee for delivering your packages and Unifaun Online as TA/TMS-system for managing your shipments. This app will show Airmee's delivery time slots in Shopify's Checkout. The selected timeslot will be saved with the placed order and synced to Unifaun Online as a printable shipping label. You can print the label and book transport Inside Unifaun Online Dashboard, You can let the sync happen automatically and						FAQ Developer website Privacy policy support@uniwin.se Get support

After successful installation you will see the Airmee app and the "Airmee Setting" page. Be aware the Delivery Timeslot is disabled by default, and it must be enabled for showing the delivery time options in Shopify cart checkout page. **Please check our PDF userguide and videos on our website about how to configure and test the app.**
