For remote support start TeamViewer Quick Support from:
<https://get.teamviewer.com/uniwin>

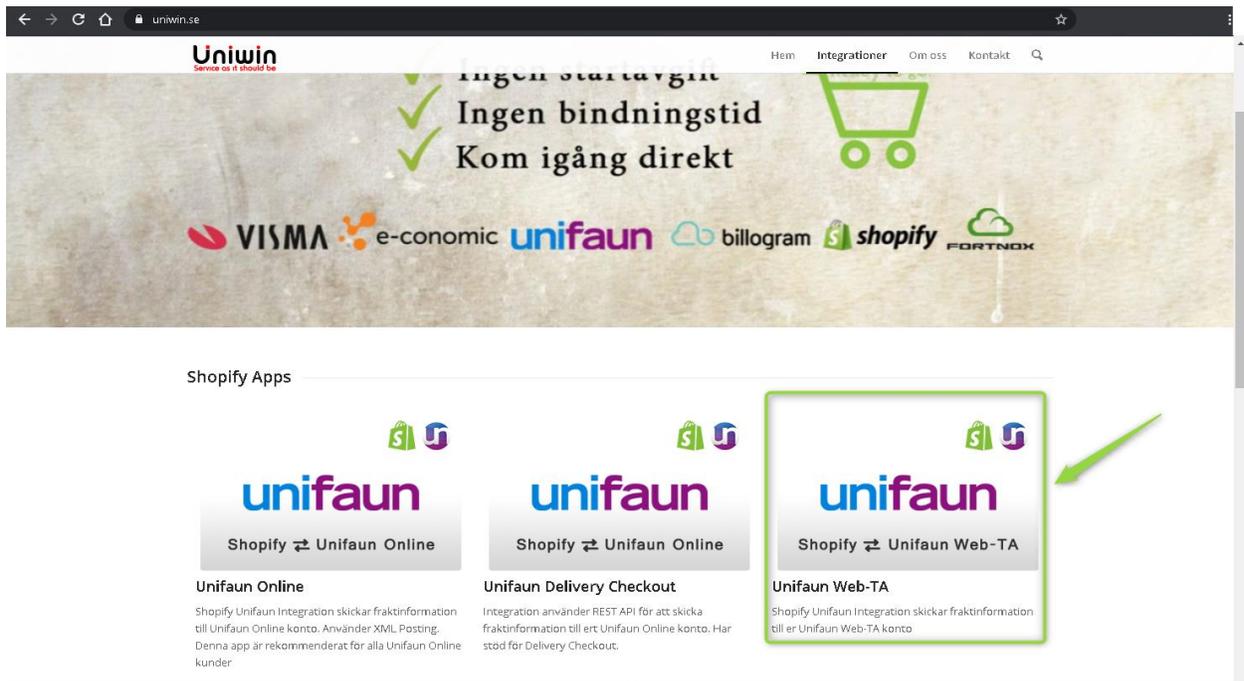

Uniwin Helpdesk

Step 1

Go to Uniwin website <https://uniwin.se> and click on "Integrationer".

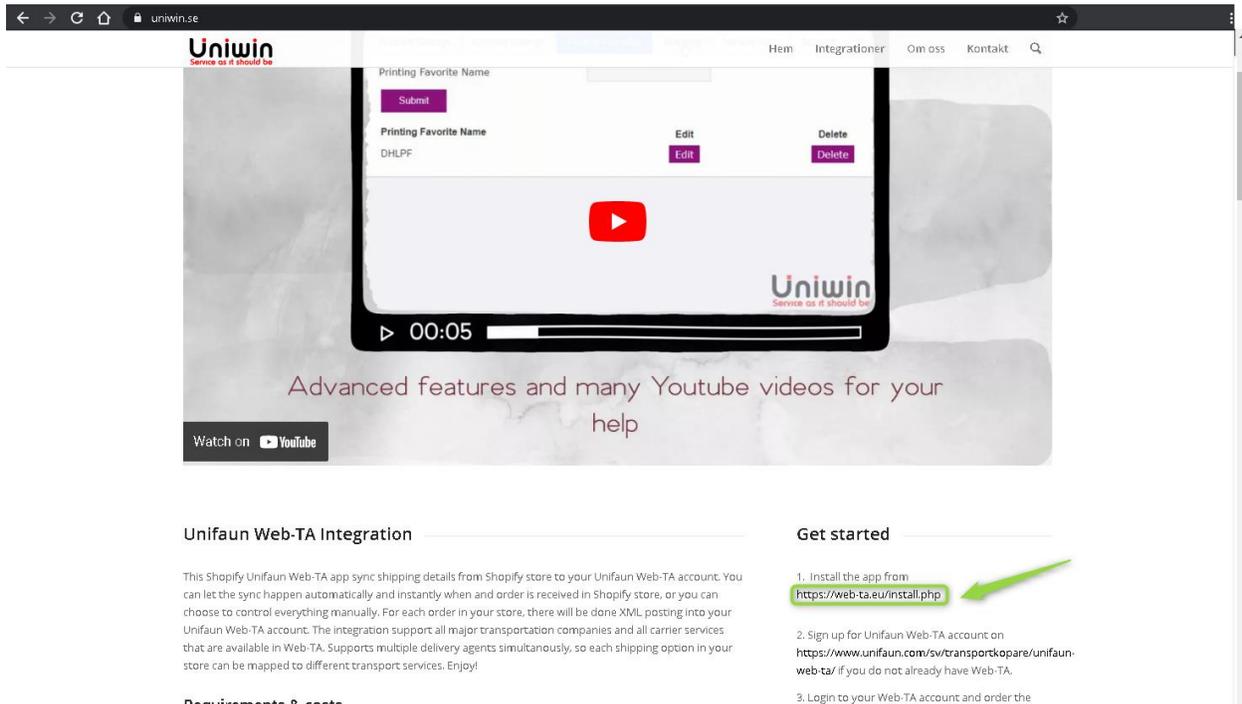

Then scroll down and click "Unifaun Web-TA"

Step 2

You are now in the Unifaun Web-TA page,, scroll to 'Get Started' then click the link of the installer.

Type your Shopify Store URL in the pop-up window and click Log in. Your Shopify store URL will be in the format [your-shop-name].myshopify.com.

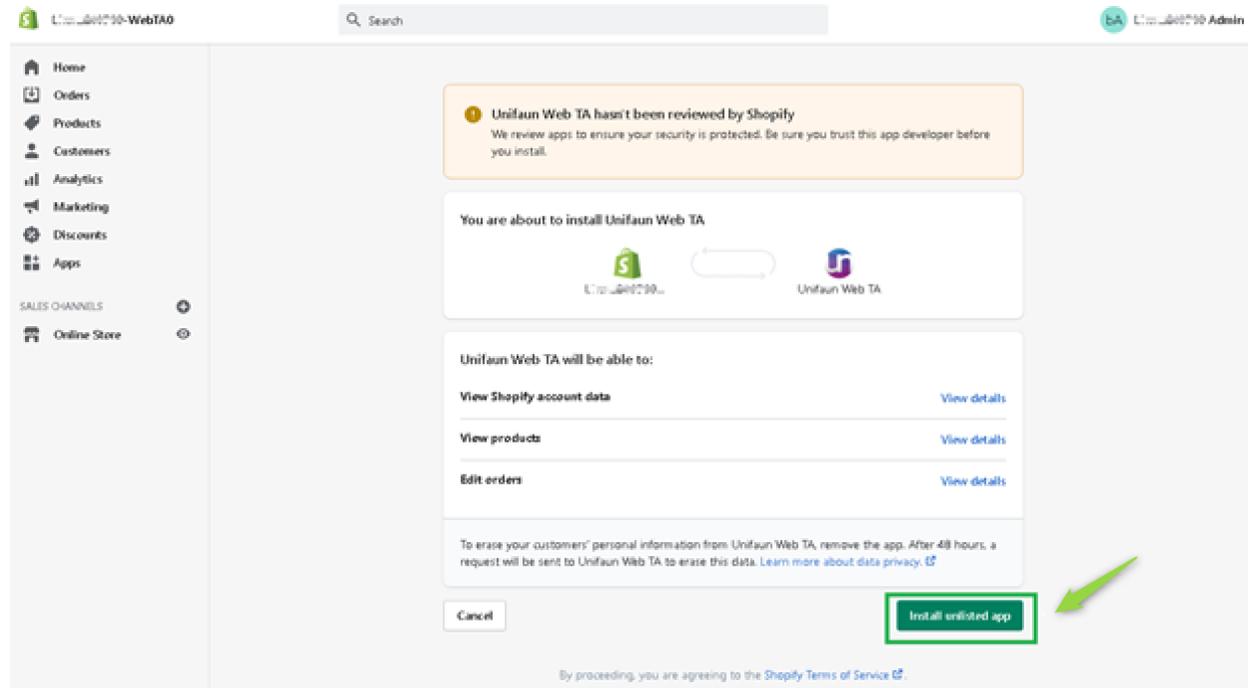

Install this app in a shop to get access to its private admin data. Don't have a shop to install your app in handy? [Create a test shop.](#)

The URL of the Shop (enter it exactly like this: myshop.myshopify.com)

And click "Install" button

Step 3

Click **“Install Unlisted App”** and accept the **“Start free trial”**. Web-TA is free and no additional costs will apply for Unifaun Web-TA services.

After successful installation you will see the Unifaun Web-TA app and the “Account Settings” page.

At this point, unifaun Web-TA is ready for configuration.

Please check our PDF user guide and videos on our website about how to configure and test the app.
