**Uniwin Helpdesk**

## Step 1

Go to the Uniwin by visiting our product page, you can find the installation link on right of the page <https://uniwin.se/integrationer/shopify-uniFaun-online/> or you can install it by the following direct installation URL <https://ufo1.uniwinapp.com/install.php> .

## Step 2

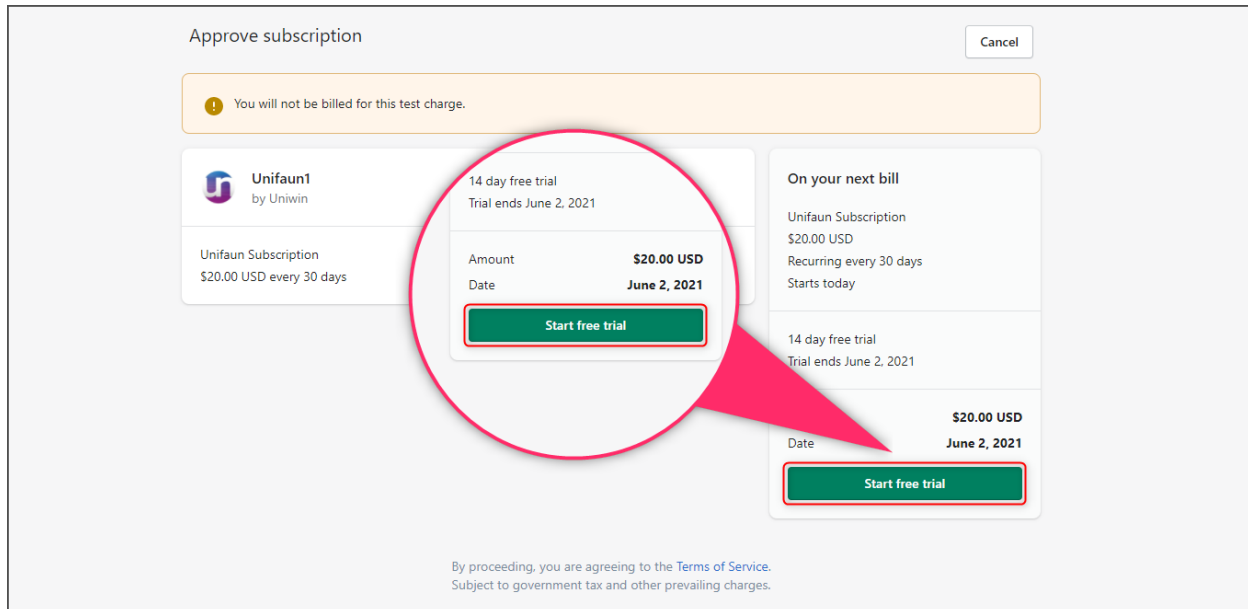

Type your Shopify Store URL in the pop-up window and click install. Your Shopify store URL will be in the format [your-shop-name].myshopify.com and click "Install" button.

**Note:** If you went for upgrade the app UniFaun to UniFaun1, you have to delete the old app (UniFaun) to avoid the double sync and double invoice after completing the setting in new app (UniFaun1).

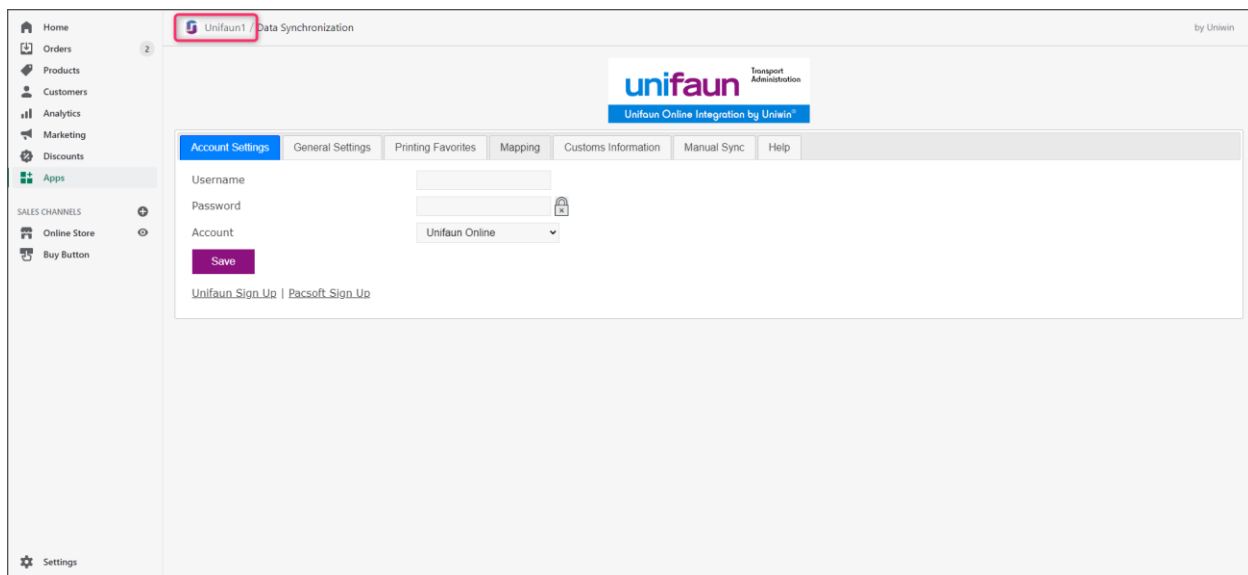

### Step 3

Accept the "Start free trial". After 14 days trial period, 20\$ will be billed for each new billing period of 30 days. Amount will be billed by Shopify on your monthly Shopify invoice. If you install the app on the 1<sup>st</sup> of a month, then the billing period will be from the 15<sup>th</sup> of the month to around the 14<sup>th</sup> of the next month. Additional costs will apply for Unifaun services.

After successful installation you will see the Unifaun1 app and the "Unifaun1 Setting" page. **Please check our PDF user guide and videos on our website about how to configure and test the app.**

### Step 5:

Delete the Unifaun app in shopify admin page.
