

## Sync orders to Postnord automatically

This guide will illustrate the steps to sync orders to Postnord automatically.

### 1. Enable auto sync

The screenshot shows the PostNord account settings interface. At the top left, there is a logo with 'pn' and the text 'PostNord'. Below this, there are four tabs: 'Account Settings', 'General Settings', 'Manual Sync', and 'Help'. The 'General Settings' tab is selected and highlighted in blue. Underneath the tabs, there is a section with two settings. The first is 'ENABLE AUTO SYNC' with a checked checkbox, which is highlighted by a red box and a red arrow pointing to it from the right. The second is 'POSTAL VALIDATION' with a dropdown menu showing 'NO'. At the bottom left of this section is a purple 'Save' button.

Check the above image, go to general settings and enable “auto sync” and click save.
