

# Sync to Airmee

## Sync order details to Airmee Dashboard

Shopify orders can be synced to Airmee TA and Unifaun/nShift TA in different ways. This guide illustrates the different ways.

Method 1: Sync from Shopify Orders page to Airmee TA:

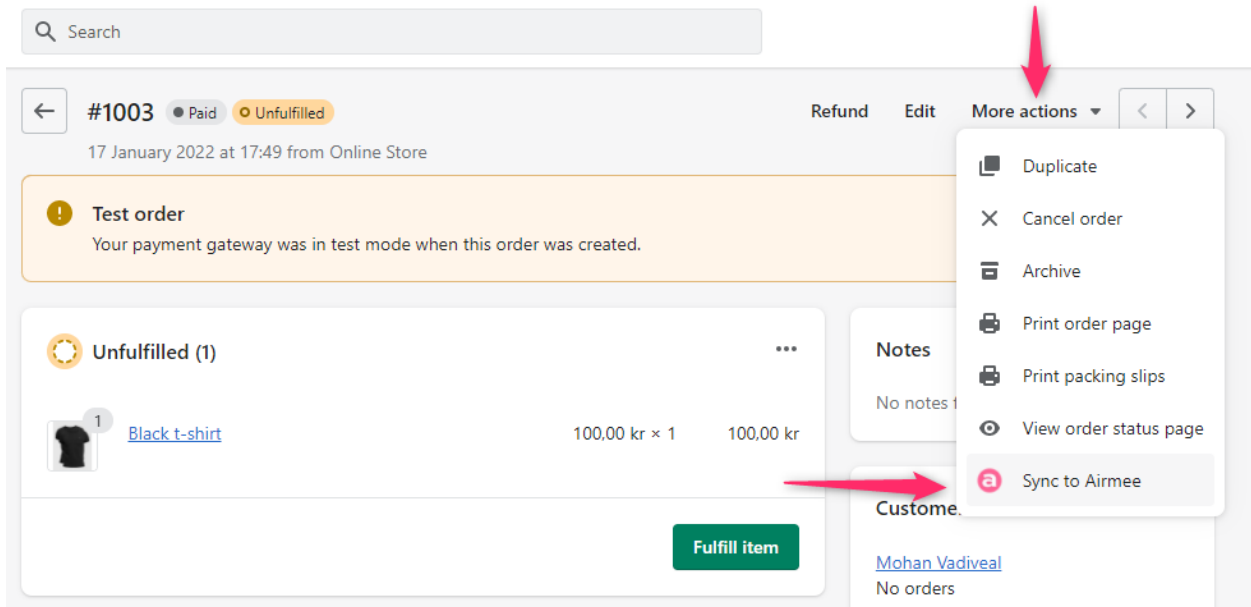

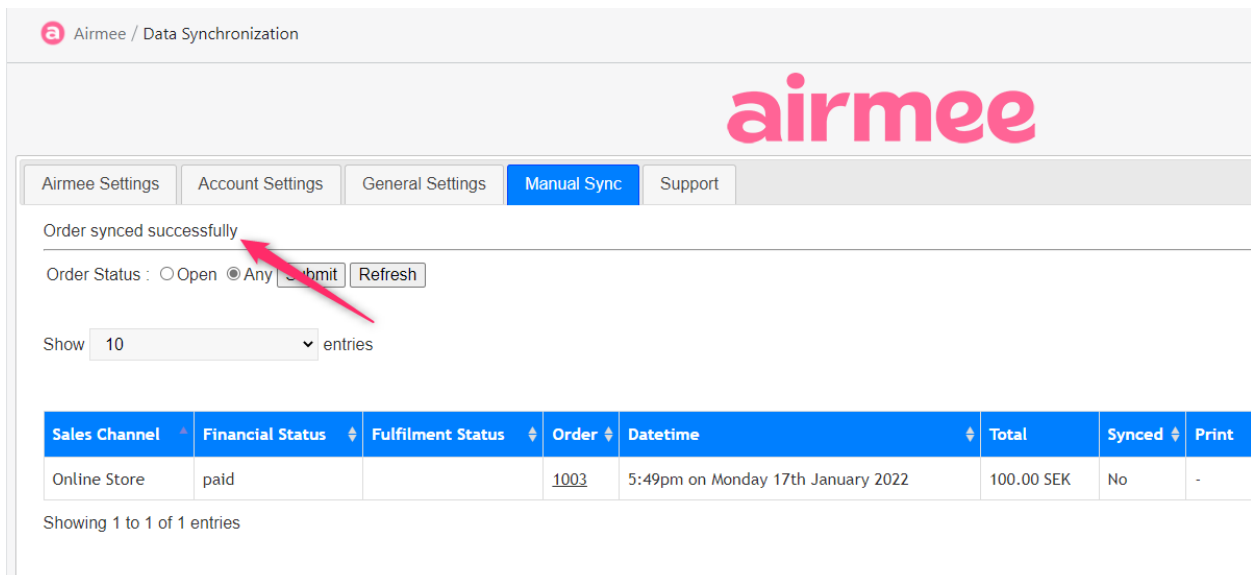

Image Above: Open the order from Shopify's orders page. Then click on "More Actions", on the drop down you will see "Sync to Airmee", click on this option. The Airmee App will now open this order in the Airmee App and trigger the sync feature.

Once synced, you will get a message "Order synced successfully". Image below:

Method 2: Sync from Airmee App's "Manual Sync" page Airmee TA or Unifaun/nShift TA

Image above. On the "Manual Sync" tab of the app, there are sync sign ">>" for column "Sync" and "Sync to Airmee". Click on the sign in column "Sync to Airmee" if you want to sync to Airmee TA, or click on the sign in column "Sync" if you want to sync to Unifaun/nShift TA. If you are syncing to Unifaun/nShift then make sure that you have saved correct API details for Unifaun/nShift.
